EDUCATION

2010-2014 — ZBORIV COLLEGE OF **TIPNTU**
I've started my education at `Zboriv College of Ternopil Ivan Puluj National Technical University` as a `Programmer`, on completion I've get my diploma of `Associate of Science` with honours.

2014-2016 — **TIPNTU**
Next step in my education was at `Ternopil Ivan Puluj National Technical University` where I've get my `Bachelor's Degree` in `Software Engineering`, again, diploma with honours.

2016-NOW — **TIPNTU**
Now I'm studying at `Ternopil Ivan Puluj National Technical University` on my `Master's Degree`.

NOW — ERASMUS **PO**
And also I'm an ERASMUS student at the `Opole University of Technology`.

I like to take a lot of online courses and to explore a documentation for the new technologies.
I always appreciate any possibility to gain experience from professionals.

EXPERIENCE

I have some experience in the competitive programming, participated in the ACM-ICPC contest two times.
I like Open-Source software and always look at the young projects on github to participate in. For instance, I've contributed to the FlipWebApps/GameFramework.

I also have some experience in the web development, i were working part-time at the Taxi Joker in Ternopil, Ukraine. My responsibility was to introduce a new web-platform (full stack development) and connect it to the existing infrastructure (server, dispatcher's software, sms services etc.).
(2015-2017)

I have participated in the non-commercial game development as well as in the open-source game services, some of which can be found in my GitLab repositories.

INTERESTS

In the software development I like to convert modern technologies and bleeding-edge concepts into a products.
Outside of work, I like fiction (especially science fiction) books and video games (development of the video games as well).
As for activities, I like to play Airsoft and tabletop games.

LANGUAGES

UKRAINIAN- NATIVE
ENGLISH- B2
POLISH- PASSED TEST FOR B2, BUT, HONESTLY, NEED MORE PRACTICE
